

Whitening instructions 22% Concentration

Patient instructions for use:

1. Brush teeth before each application of Fluorescent.
2. Remove syringe cap and fill bleaching gel into trays using 1/3 to 1/2 of syringe.
3. Place whitening gel in face-side of each tooth space in the deepest part of the tray. Use only tear-drop size of gel.
4. Gently place tray over teeth and allow any excess gel to escape.
5. Remove any excess gel in gum area with toothbrush.
6. Rinse mouth and do not swallow.
7. Tray can be worn at any time during the day. Some sensitivity is expected. If severe sensitivity occurs, stop usage and discuss with your doctor.
8. After each application, remove tray and rinse with cool water. Use toothbrush to remove gel.
9. When not using tray, store in case provided.
